

DESCRIPTION

Hand practices like sanitizing hands become inevitable especially in the context of COVID19 prevention. As per our research and as per WHO guidelines, we have formulated this alcohol base hand sanitizer without any harmful chemicals like free chlorine, free bleaching radicals, free ammonia, phthalate and harmful metal salts, This is made with 70% alcohol as alcohol is effective at killing different types of microbes, including both viruses and bacteria, because it unfolds and inactivates their proteins and the existed anti bacterial essential oil, provide a natural fragrance with protecting hands. To know about it in details please click on the name of the product.
